Fresa XPress Features

- Fresa Technologies is an independent, neutral and professional software company that provides IT and IT enabled services with focus on providing solutions only to Freight forwarding and shipping industries.
- It also focuses on infrastructure and hardware support such as developing & maintaining websites, mail services and email marketing.
- Our team comprises of highly skilled individuals, who are experienced architects in designing & developing Freight forwarding & Logistics software solutions. We focus on enhancing user experience and satisfaction for a sustainable relationship.
- To be the leader in providing critical solution for freight forwarding, shipping, transportation and logistics industries - provide our customers with the tools that will enable them to operate - top of the class in their industries.

About Fresa XPress

- Fresa XPress is web based ERP on the cloud, fully integrated freight management software, designed for the Freight forwarders, IATA Cargo Agents, NVOCC, Transporters, Courier and Logistic service providers to efficiently organize, manage and monitor their business.
- The integrated modules capture information from initial sales, quotation, and shipment detail with status updates mail to various internal and external stake holders involved in the life cycle of the shipments.
- It also helps in generating Shipping and Financial document, Invoice & Receipts with MIS capabilities providing real time visibility, transparency of operation and finance within the organization and to the end customers.
- Fresa XPress is highly scalable and helps in optimizing resources with reduced administration cost and increase in the quality of service and profitability.

Fresa XPress Modules

Database - Oracle Database 11g R2 XE

- Oracle Database 11g Express Edition (Oracle Database XE) is a free version of the world's most capable relational database.
- It is an entry-level, small-footprint database based on the Oracle Database 11g Release 2 code base.
- It's free to develop, deploy, distribute, fast to download and simple to administer.

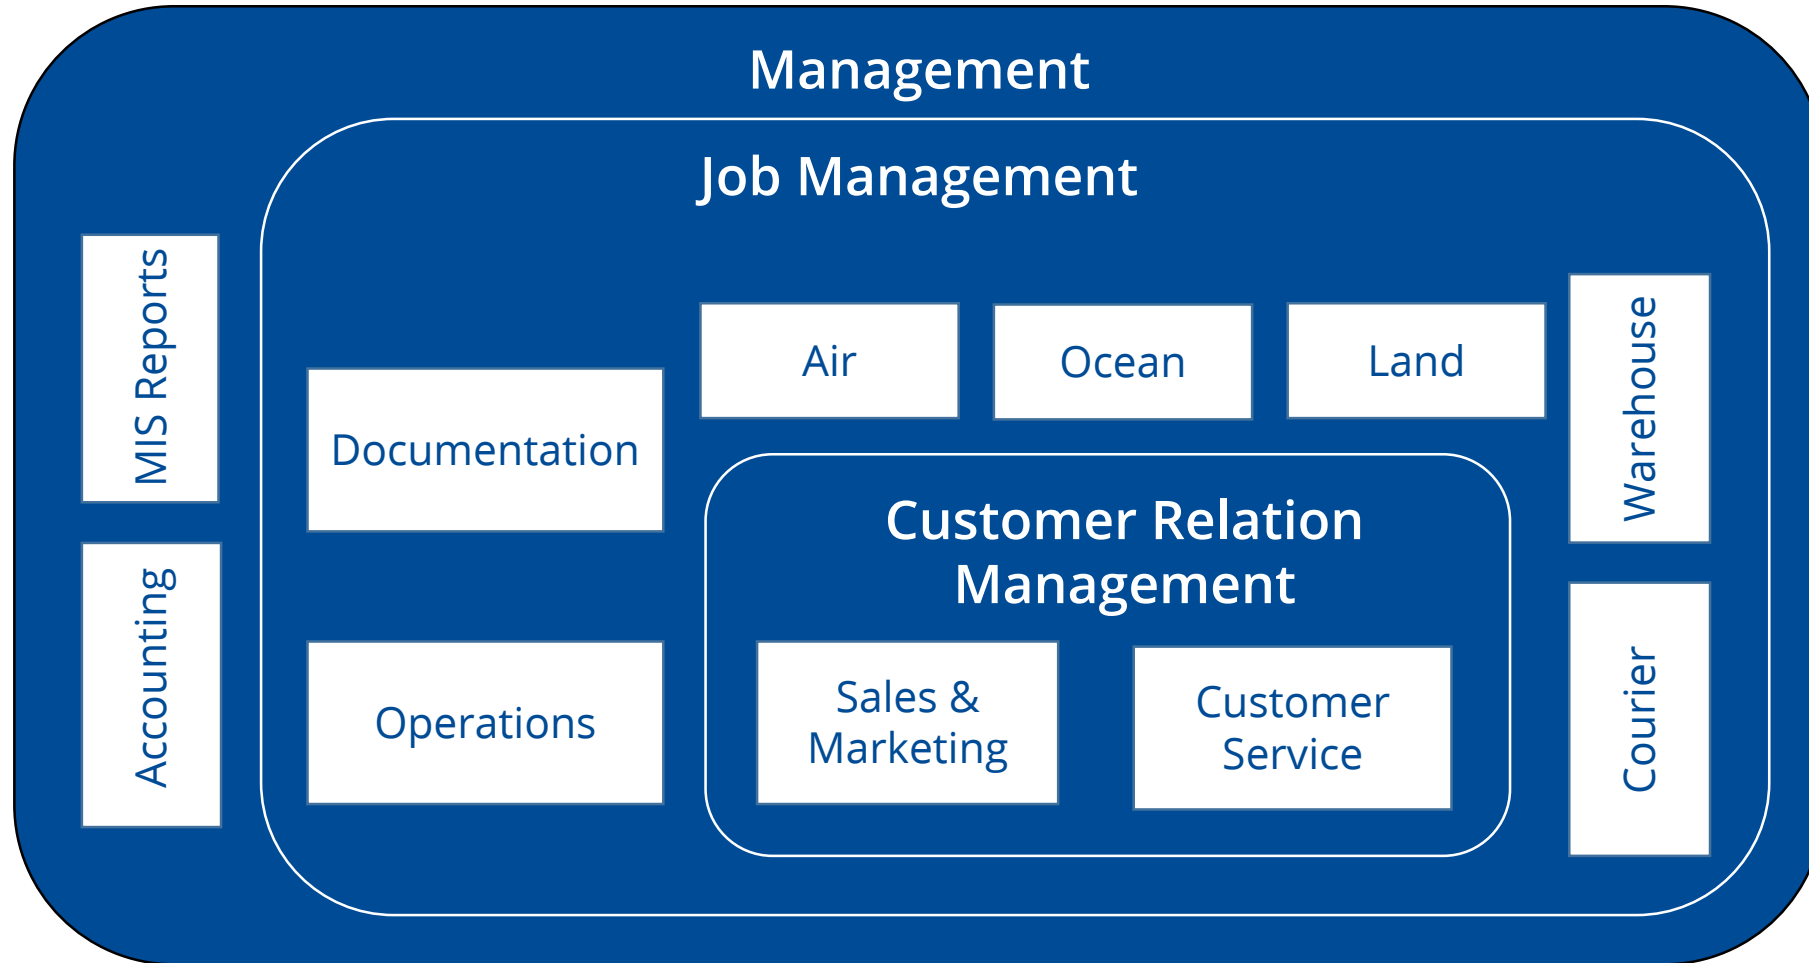

ERP Interface - Oracle Application Express 4.2.5

- Oracle Application Express (abbreviated APEX, previously named Oracle HTML DB) is a web-based software development environment that runs on an Oracle database.
- It is fully supported and comes standard (at no additional cost) with all Oracle Database editions and, starting with Oracle 11g, is installed by default as part of the core database install.
